QUESTION PAPER

=====

School: atul public school  
Teacher: Pawan Singh  
Grade: Grade 12  
Subject: Physics  
Chapter: Electromagnetic wave  
Topic: Types of Electromagnetics  
Subtopic: radio waves

=====

-----

Q1: What is the typical frequency range for radio waves?

Difficulty: MEDIUM  
Type: SHORT

-----

Subjective Type (No Options)

-----

Q2: Name two common applications of radio waves.

Difficulty: MEDIUM  
Type: SHORT

-----

Subjective Type (No Options)

-----

Q3: What is the relationship between wavelength and frequency for radio waves?

Difficulty: MEDIUM  
Type: SHORT

-----

Subjective Type (No Options)

-----

Q4: Which type of radio wave is used for long-distance communication due to its ability to reflect off the ionosphere?

Difficulty: MEDIUM

Type: SHORT

-----  
Subjective Type (No Options)

-----  
Q5: What characteristic of radio waves allows them to travel long distances?

Difficulty: MEDIUM

Type: SHORT

-----  
Subjective Type (No Options)

-----  
Q6: What is the approximate speed at which radio waves travel?

Difficulty: MEDIUM

Type: SHORT

-----  
Subjective Type (No Options)
