## QUESTION PAPER

---

School: delhi public school

Teacher: atul singh

Grade: Grade 11

Subject: Chemistry

Chapter: state of matter

Topic: solid state

Subtopic: type of solid state

---

Q1: Which type of solid has a repeating, ordered structure?

Difficulty: EASY

Type: SHORT

Subjective Type (No Options)

---

Q2: Give one example of a crystalline solid.

Difficulty: EASY

Type: SHORT

Subjective Type (No Options)

---

Q3: What is a solid that lacks a long-range order called?

Difficulty: EASY

Type: SHORT

Subjective Type (No Options)

---

Q4: Provide an example of an amorphous solid.

Difficulty: EASY

Type: SHORT

---

Subjective Type (No Options)

---

Q5: Does a crystalline solid have a sharp melting point?

Difficulty: EASY

Type: SHORT

---

Subjective Type (No Options)
